

Dit onderzoek is uitgevoerd binnen het Top Institute Pharma (project T6-301). De leden van het onderzoeksconsortium zijn de Universiteit Utrecht, het College ter Beoordeling van Geneesmiddelen en Nefarma. De meningen in dit artikel zijn uitsluitend die van de auteurs en op geen enkele wijze te interpreteren of te citeren als die van het College ter Beoordeling van Geneesmiddelen, andere agentschappen, een van hun comités of werkgroepen.

P.J.K. van Meer heeft geen conflicterende belangen. H. Schellekens heeft deelgenomen aan congressen en publicaties gesponsord door Amgen, Johnson & Johnson, Roche, Sandoz en Hospira. Een deel van zijn onderzoek wordt direct of indirect gesponsord door Roche en Amgen.

## Verbetering

In *PWW Wetenschappelijk Platform* van 23 januari 2015 [9(1):8] is in het referaat ‘Interactie tussen erlotinib en zuurremmers’ de eerste alinea vermindert.

Die had moeten beginnen met:

Over sommige in de G-Standaard gemelde interacties is discussie. Zo is er twijfel over het belang van de interactie tussen (es)omeprazol en clopidogrel [1].
